

Secure Enterprise Asset Management, Inc. (SEAM) is a privately held small business that provides data destruction, IT asset resale, and electronics recycling for commercial, nonprofit, and government organizations.

Our compliant and secure solutions for surplus and used computers, telephones, networking and other electronic equipment allows Federal Agencies to maintain compliance in regards to disposal or End-of-Life Management of Federal Electronic Assets.

CORE CAPABILITIES

Full Service IT Asset Lifecycle Management:

SEAM manages all aspects of the IT asset lifecycle process from collection and transport to end-of-life processing, tracking and reporting.

Total Data Destruction and Wiping:

Customers may choose between on or off-site hard drive shredding in compliance with NIST 800-88r1 Standards, document shredding, or complete media erasure for secure destruction of all types of data.

Comprehensive, Accessible Reporting:

Chain of custody documentation is made available 24x7 on SEAM's web-based Customer Portal to provide complete, asset-based transparency for tracking and auditing purposes.

Pickup and Recovery Services:

SEAM's professional team of technicians are deployed for collection, packing and loading of all equipment to ensure security and control of the total logistics process.

Certified IT Recycling:

Certified and audited electronics recycling for end-of-life devices provided with a Certificate of Destruction and Recycling ensures security and environmental requirements are met.

Remarketing and Revenue Share:

As experienced resellers of IT equipment, SEAM provides value back on qualifying assets with a robust revenue share program.
